Base Loan Amount	LTV	Previous MIP	New MIP
Any Amount	≤78.00%	0bps	45bps

For loans with FHA case numbers assigned on or after June 3, 2013, FHA will collect the annual MIP:

- For all mortgages regardless of their amortization terms, any mortgage involving an original principal obligation (excluding financed Up-Front MIP (UFMIP) less than or equal to 90 percent LTV, the annual MIP will be assessed until the end of the mortgage term or for the first 11 years of the mortgage term, whichever occurs first.
- For any mortgage involving an original principal obligation (excluding financed UFMIP) with an LTV greater than 90 percent, FHA will assess the annual MIP until the end of the mortgage term or for the first 30 years of the term, whichever occurs first.

Note: FHA calculates LTV as a percentage by dividing the loan amount (prior to the financing of any UFMIP) by lesser of the purchase price (if applicable) or the appraised value of the home. For streamline refinances with appraisals, FHA uses the original appraised value of the property to calculate the LTV.

The table below shows the previous and the new duration of annual MIP by amortization term and LTV ratios at origination.

HPML Impact on FHA Streamlines

The new MIP requirements apply to all case assignments ordered on or after 6/3/2013. The new MIP change extends monthly MIP for the life of the loan when the LTV exceeds 90%. This change has a negative impact on the APR calculation that is used to determine when High-Priced Mortgage Loan (HPML) requirements apply.

The new MIP requirements will cause some FHA loans to exceed HPML thresholds. Our Empower system will provide a warning message when a loan is deemed to be HPML.

We can make FHA loans that are deemed to be HPML, however certain additional requirements apply.

- Escrow must be maintained for a minimum of 5 years (this is not an issue because escrows on government loans are mandated and cannot be removed).
- Ability to Repay: We must verify borrower's ability to repay with verified income, assets and liabilities.

The ability to repay is a concern for Streamline transactions that previously did not require credit qualification.

Effective Immediately:

If a streamline application exceeds the HPML threshold, the loan will be required to undergo a full **Credit Qualification underwrite to comply with the ability to repay and verification requirements under TILA/HPML.**

In order for an HPML FHA Streamline Loan to advance through Empower the loan purpose code must reflect – (FHA) Refinance - Streamline Credit Qualify.

You may receive an HPML warning on other FHA loans – however, no modification to the loan purpose code will be required.

Please review Mortgagee Letter 2013-04 for complete guidance. If you have any questions, contact the Government Loan Administrator.

ASSETS

For Borrower(s) that are required to bring in funds to close:

- Provide a written Verification of Deposit (VOD) **and** the most recent bank statement for each account **or**
- If a VOD is not obtained, a statement showing the **previous month's ending balance* for the most recent month is required. If the previous month's balance is not shown, obtain statement(s) for the most recent two months.

*The statement must clearly indicate the "beginning" balance was the previous month's **ending balance**.

If Bank Statements show payroll deposits the Bank Statements are still **Acceptable**.
