GSFA Affordable Subsidy-

- **Effective for loan reservations on or after Monday, April 30, 2018**, the GSFA Affordable Subsidy will be calculated as a fixed dollar amount based on qualifying income.
- The amount of the Subsidy will be as follows:
 - **\$2,500 for Qualifying income \leq 50% AMI, OR**
 - **\$1,500 for Qualifying Income \leq 80% AMI**
- The subsidy can be used towards the down payment and/or closing costs (No cash back to borrower.)

- Follow the steps below:
 - Verify that the borrower meets the applicable income limits
 - Select the GSFA Affordable Subsidy option at Registration of the GSFA Platinum loan
 - Print the GSFA confirmation docs (Reservation Confirmation, etc.).
 - Include the GSFA Affordable Subsidy on Page 3, Section L of the Closing Disclosure
 - a.** Enter "GSFA Affordable Subsidy" on the line directly below GSFA Platinum Grant
 - b.** The GSFA Affordable Subsidy will be based on a percentage of the Loan Amount, either 2.0% or 0.5%, depending on the qualifying income.
 - Process and close the loan. (PBM will be reimbursed for GSFA Affordable Subsidy by the Servicer after loan closing.)

GSFA Affordable Subsidy Income Limits, as of April 30, 2018

Underwriters are responsible for verifying that the subordinating financing used meets FannieMae approved eligibility.
REFINANCE TRANSACTIONS	<ul style="list-style-type: none"> ▪ Minimum 3% equity required ▪ No cash out allowed ▪ Full documentation required
OWNERSHIP OF OTHER PROPERTY	<ul style="list-style-type: none"> ▪ There are circumstances when borrowers may hold an ownership interest in a property that are compatible with the intent of HFA Advantage. To accommodate these situations, ownership in other residential property is permitted provided the borrower does not occupy the other property, and the borrower: <ul style="list-style-type: none"> ○ Inherited their ownership interest in the property and shares ownership with another party ○ Owns the property with another party and the debt associated with the property was assigned to the other party by a court order (e.g., a divorce decree). ○ Is a cosigner/guarantor on the related mortgage debt and someone other than the borrower has made payments on the debt associated with the property for the most recent 12 months, as documented with copies of canceled checks or a statement from the lender.

GSFA PLATINUM FREDDIE MAC HFA ADVANTAGE GUIDELINES

**HAZARD
INSURANCE
REQUIREMENTS**

U.S. Bank Home Mortgage requires proof of protection against loss or damage from fire and other hazards covered by an extended coverage endorsement along with proof of payment for the first year's premium. This may be in the form of a policy or binder. The insurance agent is required to have an A. M. Best Company Key Rating Guide of Class VIII/A. Appropriate policies should also be obtained for any additional perils (i.e., flood, wind, hail, sinkhole, mine subsidence, volcanic eruption, and avalanche) that are not covered by standard property insurance.

a) Rating of Insurer

The required insurance must be provided by one of the following insurers whose current rating meets the following requirements:

- For an insurer rated by A.M. Best Company, a minimum Financial Strength Rating of B/III, or for a non-U.S. insurer, A/VIII, as reported online at A.M. Best.
- For an insurer rated by Demotech, Inc., a minimum Financial Strength Rating of A as reported online at Demotech.
- For an insurer rated by Standard & Poors, a division of the McGraw-Hill Companies, a minimum Financial Strength Rating of BBB as reported online at Standard & Poors.

b) The policy/binder should include the following:

- Name of the Insurance Company and Insurance
- Policy number
- Agent's address and telephone number
- Policy is in effect on the day of closing (coverage in force).
- Signature of the licensed agent for the company
- The borrower's name(s)
- Effective dates of policy (effective date must be the same or before the date of signing/closing as evidenced by notary signature date)
- Premium amount
- Dwelling Coverage
- Deductible amount.
- **The Loss Payee clause should read:**

*U.S. Bank National Association,
Its Successors and Assigns as Their Interest May Appear.*
**c/o U.S. Bank Home Mortgage
P.O. Box 7298
Springfield, OH 45501-7298**

c) Amount of hazard coverage for 1-4 family properties, PUDs, and condominiums:

- **Amount of coverage** – if the policy does not indicate guaranteed replacement or 100% full replacement cost of the insurable improvements, the insurance limits must at least equal the higher of:
 - The unpaid principal balance (UPB) of the mortgage
 - 80% of the full replacement cost of the insurable improvements

IMPORTANT NOTE: The coverage must not exceed the replacement cost of the insurable improvements, even when the UPB exceeds the replacement cost.

- **Type of coverage** – must be an all risk or named perils with extended coverage.
- **Maximum deductible** – cannot exceed 5% of the face value of the policies dwelling coverage amount or condominium master policy.

d) Verification of coverage for PUDs and condominiums:

- A copy of the hazard/liability policy for condo projects will be required when applicable
- For properties in an association such as a townhouse or condominium there is customarily a Master Policy with certificates issued to each Borrower. This will be acceptable as evidence of insurance.

GSFA PLATINUM
FREDDIE MAC HFA ADVANTAGE
GUIDELINES

**HAZARD
INSURANCE
REQUIREMENTS
CONTINUED**

e) Acceptable Evidence of Payment of Hazard Insurance

- Policy stating premium amount **paid in full**
- A canceled check, copy of front and back
- A paid receipt from the insurance agent or insurance company
- Payment deducted on and reflected on the Closing Disclosure
- A 60-day binder is acceptable with a one-year paid receipt
- U.S. Bank Home Mortgage will deduct the required amount of hazard insurance escrow from the wire amount to ensure sufficient funds are available to pay the premium when due. PBM will be responsible for collecting any shortage from the Borrower(s).
- If the premium is due within 60 days of closing, U.S. Bank Home Mortgage will require payment of the full premium at closing. Any payment of premiums due before U.S. Bank Home Mortgage purchases the loans will be the responsibility of PBM as will all late charges, penalties, and other costs.

f) Sinkhole Hazard Information

Effective with loans closing on **December 7, 2011** or after, sinkhole coverage will not be required. However, if the appraiser has identified any settlement deficiencies and it is referenced on the property appraisal a sinkhole inspection will be required. Based on the sinkhole inspection, sinkhole insurance coverage may be necessary. We will require a copy of the sinkhole inspection report to be present in the loan purchase file should there be evidence of settlement deficiencies referenced on the property appraisal.

Proof of coverage required for sinkhole coverage may consist of the following:

- Clear evidence on the declarations page of the hazard insurance policy
- Letter from the insurance agent, on their company letterhead referencing borrower, property address, reference borrower's policy # clearly stating borrower has sinkhole coverage as part of their insurance policy and signed by the insurance agent
- Any other clearly identified, official clarification that sinkhole coverage is in effect
- On Condos, same rules apply

When sinkhole coverage is required, catastrophic ground collapse coverage is not acceptable in lieu of sinkhole coverage as it does NOT provide adequate coverage. It will only payout if the property is uninhabitable.

**GSFA PLATINUM
FREDDIE MAC HFA ADVANTAGE
GUIDELINES**

**FLOOD
INSURANCE
REQUIREMENTS**

Residential Single Family Dwelling (1-unit properties, Planned Unit Developments, detached individual condo unit or a condo unit where the association is not responsible for flood insurance).

The amount of flood insurance must at least equal the lowest of the following:

- **Unpaid Mortgage Balance Plus Secondary Liens.** The unpaid balance of the mortgage and the combined outstanding principal balance of all loans secured by the improved real estate, including U.S. Bank and non-U.S. Bank liens.
- **Insurable Value.** 100% replacement cost of the insurable building and other supporting structures (the cost to replace with the same kind of material and construction without deduction for depreciation); or
- **Maximum Limit Available Under NFIP.** The maximum amount of coverage currently sold under the NFIP insurance program for the type of improvements insured. Please see section on NFIP limits

Residential Condominium Owners Associations

If the condominium consists of high-rise or other vertical dwelling units, the condominium association must maintain coverage that meets the following requirements for the **lower** of:

- **100% Replacement Cost** 100% replacement cost of the insurable building and other supporting structures (the cost to replace with the same kind of material and construction without deduction for depreciation); or
- **\$250,000 multiplied by the number of residential units in the building**
- **Third Party Checkpoint – Insufficient coverage:** The flood insurance policy from the Condominium Association that covers the entire building should be compared to the insurable value of the unit and the minimum amount of coverage required based on the insurance requirements set out in section on Determining Insurable Value.
- If the association’s existing policy is insufficient PBM must:
 - **Request the unit owner/borrower to ask the Condo Association to increase its RCBAP (Residential Condominium Building Association Policy) coverage** or any other policy provided by the condo association to meet the required coverage amount. If the Association does not obtain sufficient coverage;
 - **During the origination process or if a loan has closed and is in servicing, require the borrower to obtain an Individual Dwelling Policy** to provide per unit coverage to make up for the deficiency (gap coverage); or
 - **If closing has not yet occurred, refuse to close or service the loan.**
 - If the loan is in servicing and the borrower fails to provide evidence of adequate coverage, LPFI for the gap amount should be placed after proper notice to the borrower.

Detached Structures (Out Buildings)

All structures on a subject property which are covered by a first or junior lien must have flood insurance coverage subject to the exclusions below.

- Flood insurance is not required on any structure that is not connected to the primary residence and is also not a residence. A structure is part of residential property if the structure is primarily used for a personal, family, or household purpose, instead of an agricultural, commercial, industrial or other business purpose. A detached structure does not serve as a residence if it does not have sleeping, bathroom or kitchen facilities.
 - Definition of Residential. A structure is considered designed for use as a residence when it generally contains sleeping, bathroom or kitchen facilities.
 - While flood insurance is not required on certain non-residential detached structures, it is possible that investor or agency (GSE- Government Sponsored Enterprise) may require flood insurance on non-residential structures. Therefore, USBHM may require flood insurance on non-residential detached structures due to investor or agency requirements.

Exclusion for Detached Structures When the Insurable Value of the Detached Structure is Less than NFIP Deductibles

When the insurable value of a detached structure or any structure within a SFHA is less than or equal to the NFIP minimum deductible, flood insurance nor evidence of flood insurance on those structures is not required.

GSFA PLATINUM FREDDIE MAC HFA ADVANTAGE GUIDELINES

**FLOOD
INSURANCE
REQUIREMENTS
CONTINUED**

Determining Insurable Value

In determining the required flood insurance coverage amount, the Flood Disaster Protection Act (FDPA) requires PBM to utilize the full “insurable value” of the building and/or its contents located in a SFHA, which is the same as 100% Replacement Cost Value (RCV). The “insurable value” established must be inclusive of the value/cost of the foundation. The calculation excludes any cost related to building contents and value of the land.

Below, in order of preference, is a listing of acceptable sources of “insurable value”. In all cases, the highest preferred source available should be utilized to determine the insurable value:

1. **Cost Approach Appraisal:** From the cost approach section of the appraisal use “Total Estimate Cost New” value which includes the value of the foundation. The site/land value should not be included when determining the insurable value.
2. **Hazard Insurance:** If the RCV from the hazard insurance policy is used as the insurable value and it is lower than the total of all liens on the property or the NFIP maximum, then proof must be provided that indicates all structures are included in the RCV noted in the policy.
3. **Construction Cost Calculation:** If this method is used to calculate insurable value, it must indicate the cost of the foundation and other supporting structures and must not be more than 12 months old.
 - **Third Party Checkpoint: Hazard Insurance agents determine RCV through reasonable methods, such as an automated valuation tool or cost approach appraisal. Based on the RCV determined, the agent works with the consumer to ensure the hazard coverage amount adequately covers the structure. While foundation may not be covered in certain perils, it is always included in the RCV used to establish the hazard coverage amount (“Coverage A”).** While Coverage A or Dwelling Coverage is appropriate to use for identifying the insurable value of the main dwelling/primary structure, it does not always reflect the coverage for individual detached structures. In those instances, PBM may default to a cost approach appraisal, consider the hazard coverage amount listed for other structures or contact the insurance agent to determine if the RCV for the detached structures has been captured.

Loans Secured by an Individual Condominium Unit

- **RCBAP Divided By Number of Units:** For loans secured by an individual condominium unit with a Residential Condominium Building Association Policy (RCBAP) in place, PBM should use the replacement cost value (RCV) listed on the RCBAP divided by the number of units to determine the appropriate insurable value on a per unit basis.
- **Absence of RCBAP:** In the absence of an RCBAP when the customer is required to provide an individual dwelling policy for their unit, if the appraisal does not provide a cost approach figure for the unit or building, the business line may look to the association’s hazard policy to determine the insurable value.

Maximum Amount of NFIP Coverage

The building coverage table represents the maximum amount of flood insurance available and required by law under the Emergency and Regular flood insurance programs.

In any instance in which flood insurance coverage is mandatory, the coverage is only required to meet the maximum amounts below for the particular property type to be insured.

Maximum Building Limits of Coverage:

Building Coverage	Emergency Program	Regular Program
Single Family Dwelling	\$35,000	\$250,000

Contents Coverage

Contents or personal property coverage are not required to be included in a flood insurance policy unless the contents or personal property secure the mortgage loan.

GSFA PLATINUM FREDDIE MAC HFA ADVANTAGE GUIDELINES

**FLOOD
INSURANCE
REQUIREMENTS
CONTINUED**

Third Party Checkpoint-Personal Property & Contents Coverage: Master Servicer does not allow mortgage loans to be secured by personal property/contents. Therefore, contents coverage is not mandatory and need not be a part of the coverage requirements if flood insurance is mandatory.

Deductibles

Single Family. As of April 1, 2015, pursuant to the HFIAA of 2014, the maximum deductible for an NFIP flood insurance policy is \$10,000 for single family dwellings.

- **Third Party Check Point – Private Insurance Policies:** Deductibles for private policies may exceed \$10,000. However, master servicer will not accept any flood insurance policies with a deductible that exceeds \$10,000.

Condominiums. The maximum allowable deductible for a condominium association flood insurance policy is \$25,000.

Housing/Bond Agency or Housing Finance Agency (HFA) Loans. The maximum allowable deductible for housing/bond agency loans (HFA) is \$10,000, unless a higher maximum is allowed by state law or bond agency policy.

- **Third Party Checkpoint:** While the NFIP allows for a deductible of up to \$10,000 for single-family dwellings, the determination of an acceptable deductible is a matter of bank policy based on many factors including but not necessarily limited to investor requirements and may differ from limits allowed by the Act, regulation or the NFIP. However, in no circumstance may bank policy exceed the limits set by the Act.

FLOOD INSURANCE POLICY STANDARDS:

Additional requirements to be considered when a flood insurance policy has been issued in conjunction with a mortgaged property are as follows:

Information	Standards
Name of title holder	The full and correct name of all mortgagors taking title (as indicated on the mortgage/deed of trust) must be shown on the policy or the flood application. If applicable, the condominium owners association’s name and address will show as the insured on the condominium master policy (RCBAP).
Address of insured	The complete and correct property address as indicated on the mortgage/deed of trust and the mailing address must be shown on the policy or flood application. If applicable, the condominium owners association’s policy will include the mortgaged unit number and address in the description section of the policy.
Insurance Company name and address	The name of the insurance company, and agent’s name and address must be shown on the policy or flood application.
The loss payable clause must read (with the exception of RCBAPs*):	U.S. Bank N.A. –Its Successors and/or Assigns c/o U.S. Bank Home Mortgage Loan: _____ P.O. Box 7298 Springfield, OH 45501-7298 *U.S. Bank is not required to be listed as a loss payee or mortgage on a condominium association’s policy.

FREDDIE MAC HFA ADVANTAGE
GUIDELINES**

FLOOD INSURANCE REQUIREMENTS CONTINUED	Exemption of 30-day waiting period	<p>Typically, there is a 30-day waiting period from date of purchase before a policy goes into effect. However, the 30-day waiting period does not apply when the initial purchase of flood insurance is in connection with the making, increasing, extension, or renewal of a loan. The intent of the 30-day waiting period was to prevent the purchase of flood insurance at times of imminent flood loss. Flood insurance must be effective AT TIME OF CLOSING and throughout the life of the loan, unless the property maps out of the flood hazard area.</p> <p>NOTE: A 30 day wait period before a flood policy goes into effect is not acceptable. The master servicer will accept a policy in this scenario if the wait period has lapsed and coverage is in effect before the purchase date.</p>
	Acceptable proof of flood insurance	<p>The applicant must provide either a flood insurance declaration page or application with proof of payment of the premium.</p> <p>A certificate of insurance will only be accepted for existing or renewed policies if the following information is included:</p> <ol style="list-style-type: none"> 1. Policy form/type (GP, DP, RCBAP, PRP) 2. Policy term 3. Policy number 4. Insured's name and mailing address 5. Property location 6. Current flood risk zone 7. Rated flood risk zone (zone use for rating, including when grandfathering or issuing coverage under the PRP Eligibility Extension) 8. Grandfathered: Y/N 9. Mortgagee name and address 10. Coverage limits; deductibles 11. Annual premium <p>Note About RCBAP's: For an RCBAP, the number of units and Replacement Cost Value (RCV) of the building must be listed.</p>

Third Party Checkpoint – Documentation: At the time of loan closing, the following documentation is required:

1. A copy of the flood insurance policy or declarations page
2. An application for flood insurance and paid receipt covering a one full year of period from date of flood application (or no later than date of loan closing)

When an application with proof of payment is received, a declarations page must be received within 30 days from the date of loan closing.

- **Compliance Checkpoint – Insurance Binders:** An insurance binder is not an acceptable proof of insurance.
- **Compliance Checkpoint – Closing Disclosure Proof of Payment:** Proof of payment on the Closing Disclosure is sufficient proof of payment of the flood insurance premium when the premiums are being distributed from the loan proceeds. No additional proof of payment is required.

**GSFA PLATINUM
FREDDIE MAC HFA ADVANTAGE
GUIDELINES**

**FLOOD
INSURANCE
REQUIREMENTS
CONTINUED**

- **Compliance Checkpoint – Multiple Structures:** Each structure/building listed in a SFHA must be noted and tracked regardless of whether the structure requires a flood insurance policy. If the structure(s) are covered by a private policy (not underwritten by the NFIP), it is possible and acceptable for a single policy to list multiple buildings. However, a coverage amount should be detailed for each structure. Please see the section Detached Structures or additional guidance on whether a detached structure requires a flood insurance policy.

Escrow Requirements

For any loan secured by Residential Improved Real Estate that is originated, refinanced, increased, extended or renewed on or after January 1, 2016, escrow is required of all premiums and fees for flood insurance, regardless of whether taxes, other insurance premiums, fees or other charges are escrowed. Exemptions to this requirement include:

- Loans that are an extension of credit primarily for business, commercial or agricultural purpose;
- Loans in a subordinate lien position to a senior lien secured by the same property for which the borrower has obtained adequate flood insurance;
- Loans where coverage is provided by a condominium association, cooperative, homeowners association or other applicable group (the mandatory escrow rule applies to supplemental policies provided by the borrower);
- Home equity lines of credit;
- Nonperforming loans;
- Loans with a term of no longer than 12 months.

Borrowers with a loan outstanding prior to January 1, 2016 must be provided with the option to escrow their flood insurance premiums and fees.

Required Documentation:

- **Current flood determination** on the standard flood hazard determination form developed by the Director of FEMA.
- **Signed Notice to Borrower (NTB) or Acknowledgement.** A signed and dated NTB form OR an acknowledgement form signed by the customer indicating they previously received the NTB form. As an example of an acceptable acknowledgement, often MRB (Mortgage Revenue Bond) purchase funded loans contain an acknowledgement form signed and dated by the customer.
- **Proof of Coverage.** Proof of adequate flood coverage in force on or before the date of loan purchase by the master servicer if the loan contains a flood determination that indicates the property is located in a special flood hazard area (SFHA).
- **Proof of Insurable Value** of the improved real estate providing proof from one of the following:
 - Appraisal that includes a Cost Approach method;
 - Replacement Cost Value (RCV) from Hazard Insurance policy. If the RCV from the hazard insurance policy is used as the insurable value and it is the lower than (1) the total of all liens on the property; and (2) the NFIP maximum, then the file must contain proof that indicates the foundation is included in the RCV; or
 - Construction Cost Calculation.
 - Detached Structure Disclosure, If applicable
