- If the appraiser notes the absence of a working carbon monoxide detector, but appraisal reads, "**AS IS**" - a Lender's Certification is acceptable to assure the work has been completed.
- If the appraiser does not mention the absence of a working carbon monoxide detector in the appraisal report, neither a 1004D nor a Lender's Certification evidencing completion will be required in regards to the carbon monoxide detector.
- Case number and appraisal follow the veteran, **NOT** the property.
- All VA loans will require an appraisal and case number assigned to our purchase transaction and veteran. Appraisals and case numbers are exclusive to the purchase transactions.
- VA will not allow an appraisal or case number that was issued to another veteran on the new loan.
- VA considers the appraisal the personal property of the veteran; therefore, only transfers from one lender to another with the same veteran will be allowed.
- For loan amounts > \$1,000,000, be sure to request a certified appraiser when requesting the appraiser assignment from VA.
- Regardless of loan amount, the VA guaranty plus cash/equity must be equal to at least 25% of the purchase price or Notification of Value (NOV), whichever is less, on purchase and non-IRRRL refinances.

- Real Estate Agent Lead Base Paint Disclosure must be given to borrower and allow a minimum of 10 days in which to obtain an inspection prior to closing
- Chipping and peeling paint noted on an appraisal (by appraiser or in photos of appraisal) for homes built prior to 1978 requires a certification by a licensed Lead Paint Abatement contractor.
- Items that are excluded from the Lead Paint Abatement certification are as follows:
 - Minor repair or maintenance activities that disturb six (6) square feet (2' x 3' space only) or less of paint repair per room inside the house. Square footage must be stated by the appraiser or abatement contractor
 - Minor repair or maintenance activities that disturb twenty (20) square feet (4' x 5' space only) or less on the exterior of the home or building. Square footage must be stated by appraiser or abatement contractor.
- If the home was built after 1978, work can be completed by the seller or a licensed painting contractor. All bare wood must be primed or painted and the work verified by the appraiser, a licensed painting contractor, termite company or PBM.

Unpermitted Property Additions:

Properties with "unpermitted" structural additions are allowed under the following conditions:

- The quality of the work is described in the appraisal and deemed acceptable(workmanlike quality) by the appraiser;
- The addition does not result in a change in the number of units comprising the subject property(e.g. a 1 unit converted into a 2 unit);
- If the appraiser gives the unpermitted addition value, the appraiser must be able to demonstrate market acceptance by the use of comparable sales with similar additions and state the following in the appraisal:
- Non-Permitted additions are typical for the market area and a typical buyer would consider the "unpermitted" additional square footage to be part of the overall square footage of the property.
- The appraiser has no reason to believe the addition would not pass inspection for a permit.

 - ✓ 10% down payment
 - ✓ Significant cash reserves

Recently-activated Reservists or National Guard

- If the Reservist has indicated that his/her unit has been activated to Active Duty status the underwriter must do the following:
 - Obtain a statement which affirms that an applicant's status has been ascertained and considered
 - Obtain copy of present order to active duty. Underwriter must confirm new tour of duty time frame. Since income is normally affected with this change, income must be evaluated as to the impact on the applicant's current earnings:
 - Will the income be reduced from current earning or increased?
 - What is the time frame of these changes?
 - How will it impact the Veteran's ability to repay the loan?
 - There are no clear-cut procedures that can be applied to all cases. Evaluate all aspects of each individual case.
 - **The file must be carefully and thoroughly documented.** This includes any reasons for using or not using reservist income. The underwriter must clearly explain how the new loan will not place the Veteran in financial hardship.
